## We Deliver!

There is no need for you to tow the camper for Long Island locations. Our professional and experienced associates will deliver your camper right to your campsite and set it up for you. At the end of your camping trip you simply pack up and head home. We do the rest! Units are also available for tow off of Long Island.

## First Time Camping?

No Problem! We will help you every step of the way from setting up your camping reservations to planning what to bring with you and providing creative ideas on what activities would be most appealing to your family or group. We go over everything with you prior to your rental. Our customers always have 24 hour access to our staff during their camping trip.

## Not Sure if Camping is for you?

We provide an economical and hassle free way to try camping. There is no better way to find out if camping is for you and your family, than to rent a camper from Icy Hollow Rentals. By renting one of our campers you get to try camping without the long term commitment of making a significant investment in an RV / Camper and tow vehicle.

## Why Rent?

There are many reasons to choose renting over purchasing a camper. Perhaps the biggest reasons are the work and the costs associated with owning. In the long run,

renting is much less expensive and far less work than that of owning a camper and tow vehicle. Most people do not use their camper as often as they had expected and many only use their camper once or twice a year after the first year or two.

If you are considering your first purchase - **Rent One First!** Not only do we make it easy for you but, we have a variety of campers available to meet your needs. The experience you gain will make you a more educated shopper. We are confident that you will come away with ideas about what you would want in your new camper that you never even thought about

## Everything You Need!

All you have to do is show up. Icy Hollow Rentals will deliver and set up your camper with everything that you need for a great camping experience. You will need little more than your food and clothing.

Our campers are equipped with everything we would want on a camping trip. Most of our units include over 250 items. We include everything from pots and pans to linens and much more. We also make every attempt to accommodate our customer's needs so if you have a special request, just let us know (additional fees may apply).

*We Make it  
Easy!*

## Camping doesn't have to be about roughing it!

Camping should be about relaxing and enjoying the great outdoors with your family. Icy Hollow Rentals makes that possible. *Camping has never been so easy!*

## Still Prefer Tent Camping?

Camping in an RV or camper is not for everyone. Many people still enjoy tent camping. But why buy and store all that equipment. Icy Hollow can provide the gear you need. We also have open or closed gear trailer to transport your own gear to and from the campground. Pick up and delivery is also available for those that do not wish to tow.
